Howdy!
Thank you to
everyone who

Wild, Wild West
2026 Banquet

A message from the President: Michael Logiodice

Our chamber and community have experienced unprecedented growth, and with that growth comes new challenges. To navigate them I feel consistency is essential. My focus in my new role is to utilize tools like our mission statement to help align us and increase consistency. My goal over this year is that we establish structured systems that preserve the values our members have cherished over the years, while keeping us grounded in our history and maintaining the heart of this remarkable small-town business community as it navigates the inevitable changes a growing community experiences.
